Commissioner for Patents

-- Cross-Reference to Related Applications

This is a continuation of International Application PCT/ JP01/03911, with an international filing date of May 10, 2001, which was not published under English under PCT Article 21(2).--

Remarks:

The entire delay between the date the priority claim was due and the date of this petition was unintentional. As a result of a notice in the Official Gazette published 18 March 2003, the applicants agents became aware of the need to correct the priority data on this application. This Petition includes the surcharge set forth in §1.17(t).

U.S. PATENT & TRADEMARK OFFICE

This application was filed on January 8, 2002 and is intended to be a §111(a) "bypass method" filing of International Application PCT/ JP01/03911. The unsigned Declaration originally submitted with the present application clearly shows a reference to the International Application. However, since there was no explicit statement that the present application is a "continuation" of the International Application, the filing receipt does not properly reflect the correct priority data. Besides not listing the correct relationship to the International Application, the filing receipt does not properly list priority to the underlying foreign priority document either. Thus, the filing receipt should be amended to reflect the correct claim of priority as follows:

This is a continuation of International Application PCT/ JP01/03911, with an International Filing date of May 10, 2001, which was not published under English under PCT Article 21(2).

	P2000-149119	JAPAN	May 19, 2000

The Commissioner is hereby authorized to charge any fees (or credit any overpayment) associated with this communication and which may be required under 37 CFR §1.78 to Deposit Account No. 50-2603, **referencing Attorney Docket No. 352738.00300. A duplicate sheet is attached.**
